Hi, Sandy -- This is the Pavillion page from the Perciasepe briefing book prepared on Feb. 19, 2013 for his appearance at the WGA conference. I also have a copy of the EPA HQ news release announcing the State taking the lead that I can include with what we provide to Mike.

Thanks!!

Sandy

Do you have the latest one pager on pavilion that I could start with? I think we sent you something several months ago?

Sandy

Ayn is out this week-Martin and I will get something for you—BTW VelRey Lonzano is acting for Colleen Rathbone.

Importance: High

Hi, Bert, Colleen and Ayn: Jen Clanahan, Senior Policy Advisor for Representative Diana DeGette in her Denver Office, is having an introductory meeting with Shaun on August 15. Jen has provided a few topics she'd like to check on with Shaun – 1) **Pavilion**, 2) **stormwater regs** and 3) **nutrient pollution**.

Ayn – As you know, Rep. DeGette maintains an interest in fracking, and her bill is still pending. Shaun may already have all he needs on the Pavillion situation, but would appreciate it if you could confirm he's got the latest info. (I'll furnish the LA Times article Rich sent around earlier today about EPA's actions at the Dimock site.)

Bert -- Is it your shop that could provide a one-pager on nutrient pollution? Again, Shaun may have something on this already, but would like to assure he has the latest info.

Colleen – I wasn't sure if the stormwater regs would be in your bailiwick or not. Please let me know if I should redirect this request.

If you could please provide the updated info you have on these topics to Mike Shanahan (with a cc to me) **by Thursday, August 8** so that Mike can include the info in Shaun's weekly briefing book for the week of this meeting, I'd sure appreciate it. Also, if you feel Shaun should have a staff briefing on any of these topics, rather than just receive an updated one-pager, please let us know; and we'll see about getting that scheduled.

As always, I REALLY appreciate your assistance!! Please let me know if I can help in any way.
